# A CONTINUITY to EXISTING GRAND DESIGN

The Grand Kenjeran mengintegrasikan perumahan, apartemen, pusat komersial, perkantoran dan banyak fasilitas lainnya. Dikembangkan di tengah lingkungan yang terdesain dengan baik dan asri. Langkah awal dari sebuah inovasi landmark baru di Surabaya Timur. Kini menghadirkan Mezzanine, sebuah karya hunian terkini dari cluster Pinewood yang memadukan fasilitas terpadu dan lingkungan yang nyaman. Menciptakan sebuah pengalaman hunian yang tiada bandingannya.

The image is a composite of several elements. At the top left is a large map of the surrounding urban area, showing major roads like Raya Kenjeran, Jalan Lingkar Utar Timur, and Jalan Soekarno (MERI). Key landmarks labeled include Kota Lanang, UNAIR, UIN, Galaxy Mall Surabaya, and Juanda International Airport. A compass rose indicates North. On the right side, there's a detailed architectural rendering of a modern residential tower with multiple levels, green roofs, and a curved facade. In the center, a large modern building with a prominent glass dome and a fountain in front is shown. A yellow diagonal line connects the central building to the residential tower, illustrating the 'continuity' mentioned in the headline. The bottom left contains the project logo 'THE GRAND KENJERAN' and developer information. The bottom right features a QR code with the text 'SCAN FOR OUR LOCATION' and distance markers for various locations.
